

IOHA 2021–2025 Strategic Plan

Representing The Global Community Of Occupational Hygienists!

Promote Profession/ Visibility

IOHA will remain present at major international events such as the World Health Assembly, the World Congress on Health and Safety and, by organizing our triennial IOHA World Conference. We will remain active in providing ideas and solutions to ensure safe conditions free from known hazards for all workers globally.

Increase Worldwide Presence

IOHA has 38 member organisations and is currently presented in 35 countries. IOHA aims to increase contacts and collaborations with local, regional, and national organizations, universities and professionals, and to increase to 50 member organisations and 18 National Accreditation Recognition members by 2025.

Improve Collaboration With Key Partners

At IOHA, we develop and maintain key partnerships with international organizations pursuing our mission of protecting workers. Along with our partners, we aim at improving workers health and safety through education and training, or by conducting projects to assess and mitigate risk.

Resources for OH Fraternity

We believe in the added value of becoming a member organisation of IOHA. We are more than an association; we are a fraternity. Members are pleased to share information, training materials and other resources to all other associations to improve knowledge and awareness about a broad range of current occupational hygiene topics and issues.

Enhance Communication and Training

IOHA publishes a newsletter every two months to help our members stay up to date with important information. The IOHA website is a resource for the exchange of information between members and other partner organizations. Members are regularly involved in a variety of ongoing collaborative educational projects. Online training and webinars are conducted periodically to exchange ideas on best practices and increase knowledge about important global OH topics.

Ensure Strong Governance

IOHA ensures its members and partners to maintain strong governance. Our executive committee meets monthly to discuss and plan key activities, while our five strategic committees meet regularly to ensure progress and continuity.

Increase Financial Revenue

As part of our Strategic Plan, we aim at increasing our revenue by assessing potential additional sources of financing such as sponsorship on our website and collaboration on a variety of specific projects.

Reach Specific Objectives / KPIs

We believe that establishing Key Performance Indicators (KPIs) is an important way of measuring our progress and achievements. We are working hard to achieve ambitious goals.

- Reaching 50 member associations and 18 NAR countries
- Growing to 20,000 worldwide members
- Doubling revenues and initiating new projects
- Increasing international recognition of our profession
- Having 3 more countries recognize OH/IH in its regulations
- Identifying and implementing regional projects
- Being more visible globally

A Safe and Healthy Environment for All!
